- No additional driver required for Windows XP or Vista
- Excellent performance in low light environments!
- Single 5 ft (1.52m) USB 2.0 connection – no additional power required
- One year warranty

eBeam
focus150

The eBeam Focus 150 visualizer (document camera) allows users to view and digitize real-world material instantly and import the content directly into eBeam Scrapbook. Capture snapshots or video of text, physical objects, and even people and import them into Scrapbook with the click of a button.

The eBeam Focus 150 plugs directly into your computer's USB 2.0 port and makes adding high-quality images and video into your lesson or presentation quick and easy.

The eBeam Inscribe 200e wireless tablet allows users to perform familiar mouse functions and utilize all the features and functionality of standard software applications from anywhere in a conference room, classroom, or large meeting space. The tablets are lightweight and compact; yet provide ample workspace for efficient desktop and program navigation and input.

Through a seamless integration with eBeam Scrapbook, the Inscribe 200e offers a unique dual input feature with the tablet and the Interactive Stylus. Also, while someone is drawing in Scrapbook with the tablet, someone at the board can simultaneously use full mouse-functionality to drag in images, edit strokes, or set up a shared meeting.

- Shortcut keys with the most frequently used Scrapbook tools
- Integrated rechargeable Lithium polymer battery offers up to 25 hours of continuous cable free operation
- Two year limited warranty

eBeam Interact DS software is the result of years of experience in the IT market, months of research on computer interfaces, and a whole lot of creativity. Traditionally only bundled with eBeam hardware, Interact DS is now available for use on your computer or with any display technology. The one-of-a-kind circular tool palettes floats over any application to provide quick access to all the features you need for dynamic and engaging lessons and presentations.

Included in the software is eBeam Scrapbook, a multi-media organizer for gathering, preparing, presenting, and sharing your content. Use the built-in meeting feature to collaborate with colleagues anywhere in the world. Share handwritten notes, digital images, and even PowerPoint Presentations from your company's UK office, a coffee shop in NYC, or a hotel in Dubai. Interact DS travels with you and your laptop.

Product Specifications

Minimum System Requirements

Windows®-compatible PC with Pentium™ II 400 MHz+ processor and Windows 2000, XP, Vista
10 MB available hard drive space

Features

- Full access to the most powerful eBeam Interact tools without having an eBeam receiver attached.
- Use the Interact software on your home computer to design dynamic multimedia presentations **before** the big meeting.
- Works with your existing desktop PC, Tablet PC, wireless slate, LCD/Plasma touch screen, or interactive whiteboard.
- Interact DS works with so many different types of input devices that it can easily become your standard presentation application.
- Access to the eBeam Meeting server, so you can share notes and ideas with anyone, anywhere in the world.

Import and share notes, PowerPoint slides, digital photos and more!

Features

- Friendly, easy to navigate, and provides you with all the tools you'll need to start using eBeam Capture or eBeam Interact
- eBeam LiveWire's "Plug and Play" allows you to instantly run the software you need without having to install a single program
- Mobile and accessible—eBeam LiveWire doesn't require privileged user/access accounts to operate
- Future-proof and upgrade-ready
- One year limited warranty

As quick as an eBeam can turn any regular whiteboard into an interactive whiteboard, eBeam LiveWire can turn any PC into an eBeam-ready computer. Simply connect your eBeam receiver to any PC via LiveWire and run eBeam software directly from the cable—no downloading or installing necessary.

Whether you want to capture dry-erase marker notes with eBeam Capture or use the powerful interactive tools of eBeam Interact,

eBeam LiveWire eliminates the need for software CDs or time-consuming downloads. All the software you need is already on the cable, so you can run it on-the-fly or install it to your computer. There's even storage space to keep your presentations for the big meeting or save notes from an impromptu brainstorming session. As soon as someone plugs eBeam LiveWire into their PC, they are ready to go!
